SUMMARY

Senior Product Designer and UX/UI Designer with 10+ years of experience across user research, interaction design, UI design and design systems. I design AI products for enterprise B2B SaaS in insurance, fintech and e-commerce, taking work end to end: interviews, user flows, wireframes, prototypes, high-fidelity UI and developer handoff. Experienced aligning cross-functional teams on ambiguous, high-stakes work and designing the human/AI handoff in regulated environments.

EXPERIENCE

Career Break — Sep 2025 – Present
Sabbatical · Buenos Aires

- Documented four portfolio case studies and designed an independent AI product concept (Numi, iOS) from research to high-fidelity UI.
- Completed AI certifications through IBM and Coderhouse.

Senior Product Designer, AI Products — Jan 2024 – Aug 2025
Perficient · Remote

- Owned the design of ClaimPro, a generative AI claims copilot for ~500 insurance adjusters, end to end: 20 user interviews, heuristic evaluations, user flows, AI behavior, prototypes, usability testing and handoff.
- Designed Vantage, a multi-agent AML compliance platform for a neobank: flows, agent states, interaction design and UI.
- Defined confidence thresholds, autonomy levels, failure states and audit trails for AI-assisted decisions in regulated workflows.
- Results: 68% faster claim resolution (client-reported, 3 months) and 90%+ adoption; ClaimPro became the company's standard tool.

Senior UX/UI Designer — Jan 2022 – Jan 2024
Perficient · Remote

- Designed Off Dep Business, a self-service B2B e-commerce platform with roles, budgets and approvals: interviewed 20 business buyers and tested prototypes with purchasing operators over several rounds.
- Led UX for Club Rumbo, a fuel-station loyalty app MVP for iOS and Android: 20 user interviews, stakeholder workshops, journey mapping and a heuristic evaluation, delivered in one month.
- Results: +56% B2B sales in the first year, +65% business accounts created and +47% account retention (client-reported).

Senior Visual Designer — Oct 2019 – Jan 2022
Perficient · Buenos Aires

- Built and scaled the Advanced Design System: visual standards, UI components and documentation adopted across multiple product teams.

Product Designer — Apr 2017 – Jan 2019
Distrito Moda · Buenos Aires

- Designed a multi-sided fashion e-commerce platform: user flows, wireframes, prototypes and UI.

Junior UX/UI Designer — Mar 2015 – Jan 2017
Tsserapp · Venezuela

- Moved from graphic design into UX/UI, designing wireframes and interfaces for web and mobile apps.

SELECTED PROJECTS

ClaimPro — AI claims copilot, insurance (web app)
Vantage — Multi-agent compliance platform, fintech (web app)
Off Dep Business — B2B e-commerce platform (web)
Club Rumbo — Loyalty app MVP (iOS and Android)
Relay — Enterprise AI agent copilot (concept)
Numi — AI meal planner (iOS, concept, 2026)
